any X-Men fan or someone who just became interested in them. It tells how Professor Xavier, Magneto, Cyclops (Scott Summers), Marvel Girl (Jean Grey, also known as Phoenix), Beast (Hank McCoy), Angel (Warren Worthington III, also known as Archangel) and Iceman (Bobby Drake) came to become the first X-Men. It also gives some info about other X-Men like Wolverine and some of their recent and former enemies like Juggernaut, and Quicksilver. One thing I enjoyed about this book is it had a lot of pics. from old and recent comics. Overall this is a pretty good book! 1 of 1 people found the following review helpful. Introduction to the Original Team. By tv3 This easy to read book aimed at young readers serves as a perfect introduction for those unfamiliar with the original X-Men team: Cyclops, Marvel Girl, the Beast, Iceman, and Angel all studying under the tutelage of Charles Xavier, aka Professor X. The book also talks about Magneto and the first adventure that the X-Men took part in. The classic team has taken many changes over the years, but few teams will rival the original. Great introduction to the original X-Men team. 0 of 0 people found the following review helpful. He treats it like non-fiction. By Rachel R. I got this for my son who is currently on a Marvel kick. He really likes non-fiction books, so he reads this one like it is a biography/history book, memorizing facts and being fascinated by the back-story stuff. A lot of fun for an early reader book and plenty of info/fun.

In this Level 4 book for proficient readers, children will learn about the original team of X-Men, see how Charles Xavier brought them together and taught them to use their unique abilities, and meet Magneto, their first and greatest enemy. This eye-catching book is filled with specially commissioned illustrations. These 48-page books about fascinating subjects like pirates, mummies, and volcanoes are for proficient readers who can understand a rich vocabulary and challenging sentence structure. In addition to the stunning photographs, informative sidebars, and glossary, readers will find archival photographs and paintings. Averaging 4,500 to 5,000 words in length, Level 4 books are 40 percent pictures and 40 percent text.
