There's also stuffed animals and dollhouse furniture, and the pages are like magazine pages, which is a very nice switch from the Browning, thin pages of other Sears catalog replicas. Love this book! Hours of fun!3 of 3 people found the following review helpful. Can I Place an Order???By Sandra IlgenWhen you look through this old catalog

reprint, you will surely wish you could place an order! Very interesting book. Good way to identify and date your dolls, bears, and accessories. 2 of 2 people found the following review helpful. A great reference! By Joy Alba I love that I can easily scan the dolls and accessories available at the time. I love Minerva heads, and I love seeing when, what size, and at what price they were available, alone and with bodies. Includes a wide range of very interesting, now antique, toys. :)

Hundreds of clear illustrations and detailed descriptions of now-antique dolls, teddy bears, dollhouses, furniture, more.
