(Download) Early Picture Postcards of North Borneo and Labuan

## **Early Picture Postcards of North Borneo and Labuan**

**Chai Foh Chin : Early Picture Postcards of North Borneo and Labuan** before purchasing it in order to gage whether or not it would be worth my time, and all praised Early Picture Postcards of North Borneo and Labuan:

A fascinating selection of postcards with views of Sabah and Labuan from the end of the 19th century till the 1930s, with just two 1948 postcards showing post-war Sandakan and Jesselton. The pre-war photos of these two towns are of particular significance as they were both almost entirely destroyed during World War II. The views of rural scenes include many of the local people and their economic activities at that time.
