[Mobile pdf] Eastern Magnificence and European Ingenuity: Clocks of Late Imperial China

## **Eastern Magnificence and European Ingenuity: Clocks of Late Imperial China**

**Catherine Mary Pagani : Eastern Magnificence and European Ingenuity: Clocks of Late Imperial China** before purchasing it in order to gage whether or not it would be worth my time, and all praised Eastern Magnificence and European Ingenuity: Clocks of Late Imperial China:

The period from the late sixteenth to the late eighteenth centuries was one of complex change for the Chinese. Europe was eagerly looking to the East with an interest in developing a China market, not just in commercial and diplomatic enterprises but in evangelical ventures as well. The resulting contacts produced significant cultural exchanges and appropriations, as well as misconceptions and stereotypes. Profoundly affected by these interactions were the areas of technology and the decorative arts. Europe became enamored of Chinese style, and a fashion known as chinoiserie permeated the decorative arts. In China, one result of Sino-European contact was the introduction of a new and important technology: the Western mechanical clock.
