The information is provided in a thorough and concise manner making it invaluable for me, a Majolica collector. I have learned many exciting new facts about the products, makers, and even the processes used in the production of one of my favorite collectibles.Mr. Bastas has clearly outdone himself with this new and even more thorough covering of a fantastic subject. I previously purchased his two volume set, which this new book replaces. There is so much more wonderful and interesting information, pictures, and collecting advice presented in this new edition.I highly recommend this book to anyone interested in Majolica, especially that from the Etruscan Works of Phoenixville, Pennsylvania. Really a must have for anyone even remotely interested in the products!Thank you, Dimitrios N. Bastas for putting such a huge effort forth in preparing this book

for us lay people!

To anyone with an interest in antique pottery the name Etruscan Majolica is synonymous with quality yet few people know anything about the pottery or the company that made it. It is probably the most famous unknown pottery in the United States. This book will introduce you to Etruscan Majolica world where dolphins balance shells on their tails; swans swim serenely across pink, lily covered ponds; and begonia leaves come in every color of the rainbow. For "Etruscan Majolica: The Definitive Reference to the Majolica of Griffen, Smith Company," the author spent six years traveling across the country in an effort to photograph examples of every known pattern made by the Etruscan Works of Phoenixville, Pennsylvania. Divided into categories based on subject this easy reference guide combines the history of the company, its founders and its catalog in a manner that will be of interest to dealers, novices and experienced collectors alike. Expanded edition includes more photos, easy to use index and updated price guide
