These cars are futuristic, utopian, eccentric, and always ahead of their time. From models that were never presented to consumers to those produced as limited series, Fast Forward shows cars that pique peoples interest and enthusiasm. From cars never shown to those models that see small production runs, Fast Forward presents vehicles that are just as much sculpture as automobile. Iconic winglets adorn models from the 50s. Automobiles of the 70s appear to be works of science fiction rather than modes of transportation. Classic interpretations and vintage prototypes that hinted at the future of yesteryear. Every decade has its own ideas of the future. The timeline of concept cars is narrated through an alluring pairing of project images and stories from inside studio walls. Designers discuss the catalysts behind their creations from the first scribble upon a blank page to a 3D model to the roadways. Fast Forward showcases the past, present, and, in the true spirit of concept cars, the future of this intriguing and diverse realm.
