He likes coffee table books that cover his interests - the color of the cover was rather disappointing - I guess I thought it was a gold color - it's just ugly yellow, and is kept on the shelf at their home rather than out on the table. . . . hmmm. . . .0 of 0 people found the following review helpful. About the AuthorThe Design Museum's mission is to celebrate, entertain, and inform. It is the world's leading museum devoted to contemporary design in every form from furniture to graphics, and architecture to industrial design. It is working to place design at the centre of contemporary culture. It demonstrates both the richness of the creativity to be found in all forms of design, and its importance. Design is a hugely fertile field of inventive new work, as well as a key component underpinning the modern economy. It provides a means for understanding the contemporary world, and, potentially, for making it a better place.
