Stiff glossy fold over flaps front and back protect this well researched and fine presentation of color photos. I got it for the Lincoln Mercury sections and they did not disappoint. Would love to see more of the 1960s and early 70's models.0 of 0 people found the following review helpful. A fine work for 1:43 collectorsBy retireeRandall Olson's photography and descriptions are great for collectors of 1:43 models. This is part of a series, and I now have every one of the four. They all compile a virtual time capsule of the state of the art in fine modeling in the scale. Well done, Mr. Olson!1 of 1 people found the following review helpful. If you have any interest in 1:43 model carsBy Joe Hohmann do yourself a favor and buy this (as well as "GM In Miniature"). This offers a wonderful background in the making of these models, as well as photos and details of the models themselves. The paper and photo quality are outstanding as well.

This colorful book captures some of the most beautiful and rare scale models of American Ford, Edsel, Lincoln, and Mercury cars and light trucks from the classic 1930-69 period. During the last thirty years, a small number of builders have devoted themselves to making, by hand, model cars in scale. Often limited to only a few hundred pieces, these unusual and expensive models have flawless finishing and astounding detail. For the first time ever in one source, the author has assembled hundreds of high-resolution color photographs from his and others' private collections, and from the builders themselves. Read about the history of these Ford replicas, the cars they are modelled upon, and learn where you can get them. This book is a must read for people who enjoy scale models and Ford Motor Company cars.

Old Cars Weekly News Marketplace, Dec. 28, 2006 If you are like me a Ford fan and a model car collector Ford in Miniature will be an invaluable part of your reference material This ones highly recommended. MCM, April 2007 ...a very worthwhile reference.
