We live a block away from the ocean and whenever we go to the beach she spends hours finding shells and sea glass. I thought she would really like this. I find myself reading it more than her. We leave it on our coffee table and our friends always look through it when they come over.0 of 0 people found the following review helpful. Sea Glass Hunter's Handbook Review-Excellent Gift for my WifeBy Kenneth A. BarrettI gave this book the highest mark since it was better than expected and was very well done with a beautiful and quality cover and materials. This was the perfect gift for my wife as she has been collecting sea glass for

many years, but I had never seen anything like this book, so it was a great find with very nice quality materials. I would recommend this book for anyone interested in the sea and especially walking on the seashore.

The perfect guide for both seasoned and novice seagunkers, *The Sea Glass Hunter's Handbook* reveals how to locate the best beaches and predict optimum conditions; understand coastal access laws; determine the personal and professional value of sea glass' and identify the source of individual fragments. Sea glass connects civilization and nature, often in surprising ways. This guide investigates how tiny bits of glass and ceramic have engaged generations of avid collectors throughout the world.

*Sea Glass Hunter's Handbook* The perfect gift and guide for both novice and seasoned collectors. Inside you'll find information on the best ways to search for sea glass, explanations of sea glass origins, a sea glass dictionary, personal stories from experts about their favorite finds, and a list of some of the best beaches around the globe. -Curt Ebbesmeyer, [www.westcoastseaglass.com](http://www.westcoastseaglass.com) When C.S. Lambert talks about sea glass, enthusiasts stop seagunking (that's hunting for sea glass to the uninitiated) and listen intently. Her previous books, *A Passion for Sea Glass* and *Sea Glass Chronicles*, continue to be best sellers for Down East Books. And her latest work, *The Sea Glass Hunter's Handbook*, is packed with gems of advice (including a sea glass dictionary!) about searching for gems of the sea-tossed variety. Now Lambert graciously shares a few more shards of her sea glass wisdom. . . . -Catherine Owsianiecki, [Examiner.com](http://Examiner.com), Baltimore, MD 11/2/2010
