The text, as always with Vivienne Becker, is thoroughly researched giving insights to the Artists process and his love of it. Bicakci uses a number of techniques and it's truly fascinatingto read.

His generosity of spirit is inspiring. The use of black background in the photographs for dramatic effect was an opportunitylost I think considering a paler background would have brought out the very beautiful subtle elements of the jewellery more profoundly.Purely a personal opinion and definitely not to detract from the pleasure you will derive
