[E-BOOK] Shultz Bakelite Jewelry (Schiffer Book for Collectors)

Shultz Bakelite Jewelry (Schiffer Book for Collectors)

Karima Parry : Shultz Bakelite Jewelry (Schiffer Book for Collectors) before purchasing it in order to gage whether or not it would be worth my time, and all praised Shultz Bakelite Jewelry (Schiffer Book for Collectors):

0 of 0 people found the following review helpful. Five StarsBy k. ColburnVery good book1 of 1 people found the following review helpful. Shultz Bakelite JewelryBy Catherine TaylorThis is a splendid book! Beautiful workmanship of Ester and Ron Shultz. I couldn't put it down as it really shows off the vintage bakelite with the original vibrant colors once the Shultz's has sanded off the oxidation. I'm most impressed with Ron's skills inserting dots, Belle Kogan's, fingernails, checks, etc. A good study. However, this book is about 6 or 7 years old and the prices have risen quite substantially.This book is for the serious \$\$\$ collector.13 of 14 people found the following review helpful. Beautiful photos and an informative useful guideBy Plastic PrincessEven if you are not the slightest bit interested in Bakelite plastic jewelry, you will enjoy this book. It introduces Ron and Ester Shultz, who are a husband and wife who are artists and craftspeople who make modern jewelry from recycled Bakelite plastic. Their story alone is inspiring, but wait until you see the jewelry- it's whimsical, colorful, and fun to look at. Along with careful examinations of the

Shultz's various techniques, this book is filled with beautiful full color photos of their jewelry. The author, Karima Parry, has already written two books on Bakelite jewelry which are collector 'must haves': "Bakelite Bangles Price and Identification Guide", and "Bakelite Pins". In those books, she not only shows plenty of Bakelite jewelry, but she also demonstrates a great deal of knowledge about her subject, and a mission to teach the reader/collector what she knows. "Shultz Bakelite Jewelry" is given the same scholarly treatment that Parry has taken with vintage Bakelite jewelry in her other books. She guides the reader through the techniques and decorative patterns that are used by the Shultzs, and introduces a workable terminology to describe them. Unlike many of the other books on Bakelite jewelry, Parry discusses the pieces in detail and helps the reader to understand why some pieces are considered more collectible, or better examples of a technique than others. Every piece is shown in full color, and includes it's measurements and a realistic price range. This book paves the way for collectors to collect Shultz Bakelite jewelry with knowledge and confidence. For anyone from a beginner to a serious advanced collector, if the subject is Bakelite jewelry, the best guide around is Karima Parry.

Vintage Bakelite jewelry is one of the hottest collectibles on the scene. When the author devoted an entire chapter in her recent book, Bakelite Pins, to Shultz pins, Bakelite fans clamored for more! Ron and Ester Shultz are modern artists who rework vintage Bakelite into startlingly beautiful contemporary Bakelite jewelry. From witty pins of every possible subject to confetti polka dotted and checkerboard patterned bangles, and more, Shultz Bakelite Jewelry takes Bakelite into a whole new realm. Covering the entire artistic career of Ron and Ester Shultz, this full color book shows hundreds of pieces, including many rare earlier pieces, along with notes on the Shultz's techniques and designs, and pricing on almost every piece. This colorful, happy book will show you why Shultz Bakelite jewelry will definitely be the Bakelite collectible of the future.
