MilliganAs a lifetime Scouter, I am always looking for more resources to use.I saw this book while on vacation, but didn't pick it up at the time. Since I am now teaching young Scouts again, I remembered the book and thought it would be a great addition to my resources.This book goes beyond just teaching someone how to tie a knot . It gives information about the knot and it's everyday applications. This make teaching Scouts easier because they are not just learning the mechanics of how to tie the knot, they are learning how to use them.Great addition to my "library."0 of 0 people found the following review helpful. They're simple, they're practical, and they're all right here. These six knots will help you get through life! Don't be confused and overwhelmed by other knot books; Six Knots for Everyday Life introduces you to the most essential knots to know. The easy-to-follow instructions with step-by-step photographs ensure successful tying, while practical examples let you know what situations are best suited for each knot. Once you learn them, you'll be surprised how often you use these six knots!
