A pleasing Christmas giftBy A CustomerI am not an car enthusiast, but my brother is. At present he has several Caddies from the 40's and 50's. After reviewing a number of books on his subject, I selected this one and picked a winner. He called earlier today, thanking me for this book again and enumerating it various virtues. I gather it lists all the esoteric information needed. I am afraid my comprehension of exactly why this book was so wonderful is minimal at best. All I know is that he enjoys it very much and considers it a prize reference for the collector.0 of 0 people found the following review helpful. Five StarsBy Brucefantastic!
