Standard Catalog of World Gold Coins

George S. Cuhaj, Thomas Michael : Standard Catalog of World Gold Coins before purchasing it in order to gage whether or not it would be worth my time, and all praised Standard Catalog of World Gold Coins:

0 of 0 people found the following review helpful. I highly recommend this reference book if you want a really in ...By JoeLThis book identified a 1612-13,spanish netherlands gold half sovourain d'or from Tourai county, very rare coin 5,188 mintage, that was not listed in any other standard cat. of world gold coins. The book has paid for itself already with this coin i.d... I highly recommend this reference book if you want a really in depth world gold coin reference book, then you will need it, too. Just an excellent reference book, thanks, Joe Liverman0 of 0 people found the following review helpful. Great, but does lack some informationBy J.R. SunderlandFirst, off, if you would like full color, buy a later edition. This book goes into such specifics as fractional privately minted coins from US territories

and siege coins. I was a bit surprised, but there is at least one country heading (for a small island country) that has another countries coin listed. This may be fixed in later editions. Overall this is a great source of basic, and sometimes in depth, information on gold coins from 1601-2009.0 of 0 people found the following review helpful. Five StarsBy Arkady StelmakhThanks

All of the listings, every one of the 35,000+ coin photographs and each updated value of the ultimate gold coin book is on this easy-to-use and sleek CD. The Standard Catalog of World Gold Coins CD features searchable and enlargeable PDF pages, in a format that's compatible with both Mac and PC. This CD makes a perfect companion when you're working coin shows, talking coins at club meetings and researching in the comfort of your own home. Add the CD version of the premiere guide to world coins to your library today for expertise you'll use for years to come.
