Five StarsBy Dominic Laurelliessential for all clothing designers....the bible of menswear details and internals0 of 0 people found the following review helpful. This is the Bible on Uniform of the SSBy Greg FrancisAs with the First Edition this Book is Superb and worth every Cent.

These books are the Bible of Waffen SS History . I Highly recommend buying the complete series for any Historian,Collector or avid reader .2 of 2 people found the following review helpful. Uniforms of the Waffen-SS 1942-1945By Paul Red ElkThis book is a one of a three-part series. I find it to be a great reference piece for all serious beginner and advance collector of the Third Reich military. I feel that this book and series is an outstanding reference book showing nice clear photographs and descriptions. Over all a good investment series to have on the uniforms of the Third Reich, or anyone that's interested in the ever changing German military uniforms The Reich.

The only comprehensive photographic book on Waffen-SS uniforms is finally available! This three volume set is unquestionably the best reference on German SS military uniforms ever produced. After many years of research and preparation, Mike Beaver, author of *Camouflage Uniforms of the Waffen-SS*, has again produced another breakthrough publication. This spectacular work is a heavily documented record of all major clothing articles of the Waffen-SS. Hundreds of unpublished photographs were used in production. Original and extremely rare SS uniforms of various types are carefully photographed and presented here. Among the subjects covered in this multi-volume series are field-service uniforms, sports, drill, dress, armored personnel, tropical, and much more. A large updated chapter on SS camouflage clothing is also provided. Special chapters on the SD and concentration camp personnel assist the reader in differentiating these elements from combat units of the Waffen-SS. Difficult areas such as mountain and ski troops, plus ultra-rare pre-war uniforms are covered. Included are many striking and exquisite uniforms worn by such men as Himmler, Dietrich, Ribbentrop (father and son), Wolff, Demelhuber, and many others. From the enlisted man to the top of the SS empire, this book covers it all. This book is indispensable and an absolute must-have for any serious historian of World War II German uniforms. Volume 2 covers: 1942, 1943, 1944-1945, Ski Uniforms, Overcoats, White Service Uniforms, Tropical Clothing.
