Fantastic By Nachtjager Quite simply, a fantastic study of the uniforms and equipment of the Waffen SS. This is the third book in the set, buy all three while you can still get them in hardcover. These will be reference books for decades to come.

This three-volume set is unquestionably the best reference on German SS military uniforms ever produced. This spectacular work is a heavily documented record of all major clothing articles of the Waffen-SS. Hundreds of unpublished bw photos were used in production. Original and extremely rare SS uniforms of various types are carefully photographed and presented here.
