The patch is a customized emblem designed specifically for a particular organization. An emblem is often displayed on patches, decals, plaques, and other memorabilia. Pride and comraderie in the crew is a direct result of the patch as a

daily reminder that a specific unit is the best in the Navy. This volume covers over 1,900 patches of US Navy rotary wing aircraft in full color, covering the patches of individual helicopters, schools, organizations, air wings and detachments for all the squadron types HAL, HC, HCS, HCT, HM, HS, HSC, HSL, HSM, HT, HU, HUQ and HX.

About the Author Michael Roberts's aviation patch collecting spans the early 1960s to the present, numbering 6000 patches. After 22 years in US Navy service and civilian work, he resides with his wife, Judy, in Long Beach, California.
