Till I have been involved in Numismatics for the better part of 40 years. As a lad in the early 50's I was buying proof sets from the Mint in the \$2.50 range, they fell off my radar screen for years. Viola, a new look via this book..lots has happened. The early 1950 sets are quite pricey. Starting in 1964 these sets no longer contained silver content coins. The book is well worth the price for those prowling around the coin universe. 0 of 0 people found the following review helpful. Very good reading.
