Victorian Clocks

Richard Good : Victorian Clocks before purchasing it in order to gage whether or not it would be worth my time,
and all praised Victorian Clocks:

This work examines 150 examples of different types of clock made in the Victorian period, including carriage clocks, mantel and table clocks, long case clocks, skeleton clocks, chronometers, Cole-type clocks, time signals and electric clocks, and turret clocks. The book gives details about the individuals and firms who made the clocks and evaluates their contribution to the history of clockmaking.
