## Walter Breen's Complete Encyclopedia of U.S. and Colonial Coins

**Walter Breen : Walter Breen's Complete Encyclopedia of U.S. and Colonial Coins** before purchasing it in order to gage whether or not it would be worth my time, and all praised Walter Breen's Complete Encyclopedia of U.S. and Colonial Coins:

0 of 0 people found the following review helpful. Five StarsBy J. WespA Breen Reference book is always good to have in your coin library!0 of 0 people found the following review helpful. Five StarsBy Philip CoombeBest reference0 of 0 people found the following review helpful. Five StarsBy Arlie PackFantastic value

Drawing on a lifetime of research, America's top coin historian presents the most comprehensive guide to U.S. coins ever published. The definitive numismatic reference book, with over 4,000 illustrations.

From Library Journal For inquiries from users with coins they believe to be valuable, it's best to acquire regularly an inexpensive price guide to U.S. coins; the "Red Book" (R.S. Yeoman's annual, A Guide Book of United States Coins ) is the most widely cited. For collectors and those with general interests, however, Breen's work is virtually a one-volume library of American numismatics, with a remarkably high percentage of information valuable to both novices and experts. The text and extensive illustrations explain the history and varieties of all U.S. coins, from colonial times to today. Relative rarity in various grades is indicated, but values are given only in special cases. Alan M. Stahl, American Numismatic Soc., New York Copyright 1988 Reed Business Information, Inc.
