Toy BookBy lego-man2It is not as complete as some toy books I have seen, but it is a welcomed addition in my search for collectable toys.1 of 1 people found the following review helpful. Very NiceBy hawkeyeThis book is small but thick. Each page is a glossy color photograph of at least one example of collectible or antique toy and price lists along the other page. Being over an inch thick it's pretty good for it's size. It is evident that this is in no way comprehensive or it would have to be zillions of pages long, but as a quick reference book, a touchstone to guage basic evaluations, it's very good. Also, it's all glossy pages and beautiful pictures throughout. It's Warman's, so as usual, it's good!!!2 of 5 people found the following review helpful.
