Five StarsBy Erika V.My husband loves this book, it shows all the places he was at during 2 tours in Vietnam0 of 0 people found the following review helpful. Very enjoyable with good informationBy River RunnerIf you are starting out collecting Vietnam era militaria or have a pretty good knowledge of what you are about this book is very helpful. Excellet photos and specifics. I can't really say that the pricing is accurate as most of what I encounter seems to run a bit less than the prices shown, but it made me feel very good about the value of the items I have. It also depicted items I need to be looking for. All in all I think the book is well worth your time and money.0 of 0 people found the following review helpful.
