Tourbillon International : Watches International Volume XIV before purchasing it in order to gauge whether or not it would be worth my time, and all praised Watches International Volume XIV:

Over 400 pages of high end magazine quality glossy pages with excellent photographs showcasing the latest masterpieces from leading watch manufacturers. A very comprehensive and current guide on (high end) watches currently available covering the years 2012 and 2013. Many of the watches shown are limited editions so availability of those shown within the book (magazine) may no longer be available for purchase - but just to view many of these are an enjoyment unto itself (the beauty of fine watches). Volume XV is not expected until perhaps June 2014. If you enjoy watches then this is a book to have on your coffee table. Enjoy - I did, and I do! By Farshad M. Great book, I just wished they had prices for some of the watches. But had a good detailed description of every watch.

Showcasing the latest masterpieces from leading watch manufacturers, this is the most comprehensive and current guide on watches available.
