Waterfowl Carving: Blue Ribbon Techniques

William Veasey : Waterfowl Carving: Blue Ribbon Techniques before purchasing it in order to gage whether or not it would be worth my time, and all praised Waterfowl Carving: Blue Ribbon Techniques:

0 of 0 people found the following review helpful. Five StarsBy JancyLove this book lots of good information in it for a wood carver.1 of 1 people found the following review helpful. Waterfowl CarvingBy John T. McLeodOutdated (1982). Ok for a beginner. Feather flow not very accurate. Feathers are too regular and don't look realistic. Tools have changed a lot since this was written.1 of 1 people found the following review helpful. Very useful book for beginners and seasoned carvers, alike.By Sharon M.Excellent book filled with useful tips for carvers, new or with a lot of practice. I would buy it all over, again.

For the first time there is available a comprehensive, step-by-step instruction method through which an inspiring carver can progress under the guidance of one of America's great carving teachers, William Veasey. Eleven different

waterfowl carvings-simple to complex: 3 flying miniatures, floating, standing, preening, antique swan. Most popular carving techniques; acrylic painting techniques; display decorative carvings; hunting decoys; how, when, where, why of competition; marketing carvings; tools and materials suppliers' lists; history of carving; 285 line drawings; full-sized carving patterns; 505 black and white photographs; 65 color plates.
