ZeiglerI Loved this Book , as I own my Grandfather's Webley RIC. in .450 Adams and handload. and one of the Writers I have chatted with.and Sadly this book was stolen. i had all my books covered with clear book sheets.1 of 1 people found the following review helpful.

Images of Forensic QualityBy CustomerThe soaring standard set by Joel Black with the digital images he has produced for his first Webley book continues with the second. These are not the classic "beauty shots" of previous great gun books. These are forensic evidence! No mark is missed or overlooked. Its value to collectors is wonderful. Full credit is due his colleagues, but without Mr. Blacks photographic and organizational skill the entire effort would be a morass of meaningless detail. It is safe to say that subject of the solid frame Webley has been brought to a full and

successful conclusion.0 of 0 people found the following review helpful. A must for the Webley collectorBy Jay GoodmanMost firearms enthusiasts think of Webleys as self-ejecting break open revolvers and forget that Webley manufactured a popular series of solid frame models which played a long and important historical role in Britain as well as other countries. This book is well written with valuable information and a large number of excellent illustrations of Webley solid frame revolvers. I recommend it highly.

With over 1400 images and thorough text, this book provides new research on the Webley RIC, MP, and No. 5 revolvers, revealing examples never before seen in print. Includes new information on Webleys purchased by police agencies prior to the RIC models. Covers Webley production from 1864 to 1938. Early Webley models used a wide variety of frames from different firms, giving the impression the company produced firearms in greater numbers than they did. A number of Webley's miscellaneous solid frames are also included, along with a discussion of military purchases of solid frame Webley revolvers, and displays of Webley loading tools, cartridges, cartridge boxes, the 1903 catalog, and previously unknown caliber offerings. This book is an absolute must for all dedicated firearms collectors and dealers.

About the AuthorJoel Black writes about antique firearms from Madison, Wisconsin. Joseph L. Davis has collected Webleys for over 40 years from his home near St. Louis, Missouri. Roger G. Michaud has a huge Webley collection and lives in New England.
