## **William Morris Tiles**

**Richard Myers : William Morris Tiles** before purchasing it in order to gage whether or not it would be worth my time, and all praised William Morris Tiles:

12 of 13 people found the following review helpful. Showcase the "art" in Arts Crafts TileBy A CustomerThe authors take their experience in British tile and present an indepth analysis of the work of William Morris. Although well-known for his other products, the authors bring the overshadowed tile work to light in text and pictures. Although collectors will not be able to add most of the picturend pieces to their collection, the book can be. Unlike many books geared toward collectors, this book showcases many installation, many of which are in abbeys, and English manor homes. It is definitely not a "my collection book." The indepth analysis of the artists who worked for Wm Morris

should hold some information to even knowledgeable collectors
