## Wine Labels: A Worldwide History

**John Salter : Wine Labels: A Worldwide History** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Wine Labels: A Worldwide History:

0 of 0 people found the following review helpful. a must have for bottles and wine labels collectors!By Thierry De Putter"Wine labels" by John Salter (author and editor) is not the kind of book you read from the first to the last page.

But it is one you'll constantly open when looking for new treasures on the web. One of those "must have" for collectors. I would just emphasize one negative point: figure and plate captions do not exist, so that you have to look for figure calls in the text. Otherwise a recommended book!0 of 0 people found the following review helpful. Five StarsBy Richard DoddExcellent illustrated study of bottle tags, mostly British and Continental.0 of 1 people found the following review helpful. totally misleading book titleBy MI agree with other buyers. I was looking for a book that had pictures of wine labels (the paper label on the bottle). Instead this is a book on what I would consider wine medallions. It is also mostly history and not many pictures, and the pictures there are in black and white, not color

like the cover suggests. This was a gift for my husband and we are both completely disappointed with the book (and the seller's return policy).

Silver wine labels first made their appearance in the 1730s to identify the contents of unmarked opaque glass wine bottles. Later they adorned clear glass decanters. This book reflects the lively interest of a group of members of the Wine Label Circle who have contributed to the text in accordance with their own specialist expertise. It explores the history of the development of the labels themselves and also of the great collections. It examines in detail makers, places of manufacture and styles. Most of the authors have already written for the journal of the Wine Label Circle on specialist subjects.

About the Author Professor John Salter was educated at Oxford University and is a distinguished international lawyer. He is past Chairman of the Silver Society and a past president of the Wine Label Circle. He has written extensively on Scottish silver and for various magazines.
